Condustrail offers a range of workforce solutions, including **Exclusive Managed Services (EMS)**, a program specifically designed to address the unique challenges faced by HR teams in managing a large, changing workforce.

EMS provides exclusive solutions tailored to the specific needs of each client company. The program is implemented by HR experts at Condustrail and offers a comprehensive range of workforce solutions.

THE BENEFITS OF EMS INCLUDE:

- Reduces the pain points commonly faced by HR teams, including managing too many employees, poor hires, high turnover, exhausted resources, contingent workforce, and lack of ownership.
- Provides HR departments with EMS professionals who manage paperwork and oversee next steps before, during, and after an employee leaves.
- Recruits qualified candidates to fill vacancies in your workforce, carefully interviewing them to ensure they are a good fit for your company.
- Rewards hard workers and promotes deserving employees without increasing your payroll budget.
- Goes out into the workforce to discover their own team of qualified job seekers to build a bench of potential employees who are ready to accept a job when the right fit becomes available.
- Can provide the right people for the job within 24 hours if your contingent workforce suddenly needs to hire 50 people to tackle a temporary project.
- Offers an entire team of HR professionals onsite at your company, completely dedicated to you and your needs.
